To whom it may concern,

This is to confirm that Bryan Carty was a student of Coláiste Mhuire from 2013 - 2019.

Bryan was an outstanding student, he was diligent, conscientious and extremely hard-working. He achieved the highest results in the school at JC and was awarded Student of the Year in 5<sup>th</sup> Year. He also received the Dr Michael Conneally Junior Science Award in recognition of his aptitude in science.

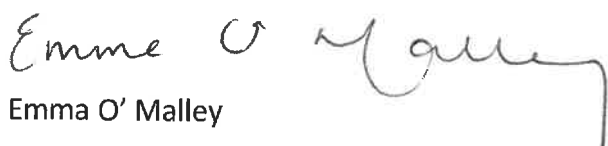

During his time here in school Bryan became involved in school life. He was on the Green Schools Committee and, together with his class, he was responsible for recycling and energy awareness initiatives in our school. Bryan was also interested in running and he represented our school in athletics, particularly cross country.

He selected Transition Year for his fourth year and throughout that year he was enthusiastic and very obliging. He volunteered for many activities and gained many new skills and competencies. He learnt cardiac first response skills, organised a forest run, and worked with primary schools for soccer tournaments.

As well as being an excellent student Bryan has a lovely manner and is very easy to work with. He had excellent attendance and behaviour records in our school.

I have no hesitation in recommending Bryan for a future position and I wish him well in his chosen career.

Yours faithfully,

  
Emma O' Malley

Principal
